Woolrich Arsenal has forwarded to South Africa over 3,000,000 cartridges for rifles and machine guns, and the reserves continue to respond eagerly to the mobilization proclamation.

Dr. Gavin Brown Clark, radical member of the house of commons for Cathness, who all along has worked hard for peace, has just received a characteristic letter of thanks from Commandant General Joubert in which General Joubert declares that Cecil Rhodes, Dr. Jameson and Mr. Chamberlain are responsible for the mischief. He says: "The Johannesburg clique say that Mr. Chamberlain regards the existence of the Orange Free State and the Transvaal as two blotches which, as Cecil Rhodes has said, must be wiped out from the map. He seems desirous to do this without the blood of the Afrikaner people and of the poor British soldiers. We do not desire war. We know we are not a match for the powerful armies of Great Britain and her willing colonies. We have never been able to do anything against England's might."

"Mr. Chamberlain is trying to drive us into the Red sea, but I still hope God will speak to the kind heart of our majestic queen, and that of her noble son, and that they will not allow this wicked Haman to cool his hatred against our land's Mordecai. We are convinced that Chamberlain will try to conquer our country and we shall try to prevent him by the help of God, to the 'let drop of our blood.'"

ULTIMATUM BY TRANSVAAL.

Kruger's Government Severs the Last Tie and Now, in All Probability, Most Fight.

CAPE TOWN, Oct. 10.—The Transvaal government has sent an ultimatum to Great Britain.

LONDON, Oct. 10.—A London news agency publishing the following dispatch from Pretoria, filed there at 7:40 p. m. yesterday: "An urgent dispatch has just been handed to Conyngham Greene, the British diplomatic agent, requesting an explicit assurance of the withdrawal within forty-eight hours of the British troops from the Transvaal borders, as well as the withdrawal of all the British forces landed in South Africa since the Bloemfontein conference."

The diplomatic circumstances surrounding the presentation of the ultimatum are probably without precedent. Ordinarily a foreign power when addressing peremptory demands to another sends them through an ambassador or minister accredited to its adversary. The Transvaal government, however, has no diplomatic representative recognized by Great Britain. Montague White, the Transvaal consul general in London, would not be received by either the foreign office or the colonial office, consequently President Kruger was reduced to the ultimatum which Conyngham Greene at Pretoria, who in turn wired it to Sir Alfred Milner, British high commissioner in South Africa, by whom it was retransmitted to Mr. Chamberlain, who thus becomes the first secretary of state for the colonies to receive an ultimatum. The ultimatum, as communicated, is translated from the cipher in which it is transmitted. Mr. Chamberlain will forward it to the foreign office.

Crosses a Sharp Note to Kruger. The Westminster Gazette says: "We learn from a trustworthy source that the British government has also dispatched a note containing stringent demands which must have crossed the Boer ultimatum. Diplomacy has thus said its last word, and the last word on each side is of the kind to which the other is not in the least likely to yield."

The more peaceful tenor of the morning's news and comments had scarcely been digested and aroused hopes that President Kruger's birthday would also mark the dissipation of the clouds hanging over South Africa, when the sensational announcement that the Transvaal government had handed a definite ultimatum to the British diplomatic agent in Pretoria caused a rapid slump in the hopes of those who believe that diplomacy will yet save the situation.

Apart from this the news tends to show that so long as the Boers remain inactive Great Britain will continue to adhere to its present persuasive methods. The speech of the duke of Devonshire, lord president of the council of ministers at the House yesterday, contains nothing to confirm the assertion made by the jingo press that the final proposals of the British government will contain sweeping aggressive schemes; and to this extent it has oiled the waters. The peace party even deduces from the duke's utterance that a reformulation of President Kruger's proposals of a five-year franchise, minus the suzerainty provision, would lead to such negotiations as would insure peace.

It is understood from these movements of ministers and the activity in the government offices that important developments are imminent, although whether they are pacific or warlike remains an enigma.

The officials at the colonies office worked all night and Mr. Chamberlain arrived there early this morning. In some quarters it is intimated that the government has received notification of the Boer ultimatum and is relieved in consequence, as the government considers the Boers, now placed in a position of having forced on war.

FIND THE TRUNK OF A WOMAN

New York Bay Gradually Giving Up Portions of Disembodied Body.

NEW YORK, Oct. 10.—The upper part of a woman's body was found on the beach at Quarantine station at 7 a. m. today by John Heilmann, 12 years old. The portion of the body found was from the waist line to the neck, the upper part of the head being fresh and it had been but a short time in the water. It was tied up with twine and pieces of manila paper and newspaper were clinging to the twine. Most of the paper is a young woman who had never been in the water. Over the right breast is a small tattoo, about two inches long, but Dr. Doty, the state health officer, says it is merely a flesh wound, and probably inflicted while cutting the body in pieces. The doctor says this portion of the body is the upper part of a young woman who had never been in the water. The part where the head is cut off is quite jagged and the head had evidently been hacked off. The arms were cut off close to the shoulders and are also cut off in a clean manner.

The first portion of the body was picked up in Seventeenth street near Seventh avenue and was the left thigh from a few inches above the knee to the waist. The second part, which was recovered from the river, was the left loin and this fitted upon the upper portion of the trunk in the street. The description of the find at Quarantine indicates that the trunk of the girl is now complete. The latest found part has not yet been brought to the morgue, where the other parts are kept.

A name that looks like "Nolan," and the laundry mark "J. J. N. 182," were discovered this morning on one of the white skirts in a bundle of clothing found in the basement of 215 West Fifteenth street. This house is next door to the arway in which stood the body of the woman.

The letters forming the name are not distinct. They are partly washed out and a little blurred. The "J. J. N." of the laundry mark is distinct, however, and is expected to lead to the owner of the bundle.

It will then be easy to learn whether or not she was connected in any way with the crime.

Chief of Detectives McCluskey said this morning that the case was a complete mystery as yet, that no point that would go toward establishing identification was found and that was the first thing necessary. It was true, he said, that a number of cases had been run down, but the case stands just as it is at the first finding of the body of the woman.

Captain McCluskey thinks the parts found last night at 215 West Fifteenth street have no bearing on the case. In his opinion the bundle was left there by a frightened thief. Even so, the portion of the body found at Quarantine will be almost impossible unless the head should be found.

The fragments of the woman's body found at Quarantine were examined at the morgue by Coroner's Physician Dr. J. J. Nolan, who undoubtedly belong with the other two portions there. Captain McCluskey said this afternoon the bundle of clothing found in West Fifteenth street belonged to a professional nurse.

BOTH FAMILIES IN COURT

Griffin and Jesse Attend the Marriage Trial—Hung Jury.

MARYVILLE, Mo., Oct. 10.—(Special.)—Mrs. Jesse, her two children, her husband, her father, William Holtzcliff, and her sister, Mrs. Marshall, are attending the Griffin murder trial, having come over from Mount City, where all of them now live, for that purpose. Griffin's family is represented by his wife and his daughter, Mrs. Clara Turner and Mrs. Hal Baker, the latter having been married since her father's death. Jesse's children are especially pretty and attract much attention.

Of the eighty veniremen examined, sixty-six were declared competent, and the expressed opinions regarding the guilt, innocence of the defendant. Several of the men on the jury are of the sixty-seven, it is regarded as a rather unusual thing to go into the trial of a murder case under such circumstances, and already predictions of a hung jury are being made.

Jesse has changed in appearance since his incarceration last April. Then he was red-faced and stout, weighing about 175 pounds. Now he is pale and looks as if he would weigh at least thirty pounds less. He has aged perceptibly. He is terribly worried and is the most watchful and attentive person in the court room.

WATSON TO BUILD NEW LINE.

ST. LOUIS, Oct. 10.—President Ashley of the Wabash Railroad company presided at the annual meeting of the stockholders of that road here today. The Des Moines division mortgage of \$1,800,000 to provide for the construction of a twenty-eight mile line of new line was approved. The annual report, already made public, was presented and the following directors were re-elected: Francis Pavy, C. C. MacRae, Edgar T. Welles, Henry K. Muller, Thomas H. Hubbard, Cyrus J. Lawrence, George M. Gould, Russell Sage, John T. Terry, S. C. Reynolds, P. B. Wyckoff, Edwin Gould and O. D. Ashley.

Coffee Makes Many Depyetics.

"Coffee and I had quite a tussle. Two years ago I was advised by the doctor to quit the use of coffee, for I had a chronic case of dyspepsia and nervous troubles, which did not yield to treatment. It was so addicted to coffee that it seemed an impossibility to quit, but when I was put on Postum Cereal Food coffee there was no trouble in making the change, and today I am a well woman."

"One of the lady teachers in our public schools was sick and nervous. Frequently the only thing she took for breakfast was a cup of coffee; I urged her to try leaving out the coffee and use Postum instead. Went so far as to send her a sample from my box and give her directions. She now uses nothing but Postum Food Coffee and told me a short time ago that she was perfectly well."

"It is easy to make good Postum, once a person becomes accustomed to it. I put four heaping teaspoons to the pint of water and put the Postum in this mustin bag, drop the bag into the water and after it comes up to a boil see that from that time on it boils fifteen or twenty minutes. Then use good cream and you have a drink that would be relished by the queen." Mrs. Lizzie Whitaker, Kidder, Mo. Postum is sold by all first-class grocers at 15c and 25c per package.

MOVE HEAVEN AND EARTH TO SAVE BRYAN

Instruct their Henchmen to Eschew State Politics and Talk About the Philippine War—Atrait of Holcomb's Record.

LINCOLN, Oct. 10.—(Special.)—The state house is practically deserted these days. The heat of the campaign has driven the faithful few from their posts at the helm of state and they have taken refuge at the popercatic headquarters, where they are concerting their efforts in the mighty task of rescuing the old shirk. The movement toward this point is general from all branches of the state government under popercatic control. The popercatic committees have called for aid and there was a ready response. Even the secretaries of the Board of Transportation, each of whom have \$2,000 a year from the state, have put their shoulders to the wheel and are working with their fellow reformers to save the state for Bryan. The Board of Transportation office, which has always been a quiet place, is now in charge of a stenographer, Secretaries Laws and Edgerton have been the first to volunteer their services to the campaign committee. Secretary Jim Dahlman is performing faithful service for the democratic machine in Omaha. Across the state house corridor in the office of Land Commissioner Wolfe, there was also a ready response. Deputy Wolfe, who asked for an increase in salary last year, has not hesitated to throw off the burdens of state to accept the secretaryship of the populist committee. The treasurer's office is represented by Charles DeFrance, who has been appointed official press correspondent for the populist committee. H. G. DeFrance, Governor Popper's staff of stenographers, has been assigned to the populist headquarters in the Windsor hotel and is devoting his time to the work of the committee. Henry Blum, another of the chief executive's clerks, is taking an active part in the campaign and on dull days puts in his time in the interests of the populist cause.

Blair Republicans Organize.

BLAIR, Neb., Oct. 10.—(Special Telegram.)—The younger element of republicans in Blair organized a republican club tonight of nearly fifty members. Charles E. Winter was president and gave the young people a rousing speech on the issues of the day and the responsibility resting on republicans in the present campaign. The address was an enthusiastic one and was very much appreciated. Mr. Winter dwelt especially on the judicial ticket and the state ticket. The audience seemed very much pleased with the address and the current opinion is that Mr. Winter did the republican ticket much good.

The officers of the club organized are: P. W. Kenny, Jr., president; John McKay, vice president; and Ray Lippincott, secretary. The club will be out in full force tomorrow evening to listen to the address of United States District Attorney W. S. Summers.

Holcomb at Central City.

CENTRAL CITY, Neb., Oct. 10.—(Special Telegram.)—Silas A. Holcomb, candidate for supreme judge, addressed a small audience at the Grand Opera house here today. By a unanimous vote of the people passed through the doors, as follows: Fifty-four populists and democrats, 49 republicans, 29 boys and 26 women. Of this number forty-five left before the meeting was over. Holcomb tried to explain the real question and justify his course. Lieutenant Governor Gilbert also made a brief address. Farmers are too poor or opposition to any measure submitted to them. Farmers are too poor to pay for the bona fide personal expenses of any candidate for public office, and for the expenses of the campaign. His reference to Old Glory met with long and prolonged applause.

ROUSING RALLY AT SCHUYLER

Chaplain Matthey Addresses the Voters and His Remarks are Greeted with Great Applause.

SCHUYLER, Neb., Oct. 10.—(Special Telegram.)—A rousing opening of the campaign by Chaplain Matthey before a splendid audience in Bohman's opera house tonight was made in a speech full of food for thought for old voters as well as for those just reaching majority. The speech was remarkably well received, the enthusiasm gaining as the chaplain made his strong points and hurled his heavy shot. Rap attention was paid throughout to irrefragable statements and clinching arguments by one who saw and heard with his own eyes and ears. His statements of conditions in the Philippines will cause some different thinking if they do not bring about changed convictions. Republicans are jubilant over the success of the meeting.

The chaplain began with telling of his appointment by Governor Holcomb, for whom he had the warmest personal regard. He recited the events of the many days that he carried him on to the field of San Mateo, when he wrote the letter so widely quoted. He told of how he found prosperity upon his return, the same terms upon which he had been sent. The next striking and brilliant point made was that in time of peace one should be with the administration, if it is right; but in time of war, when rebel guns are pointed at the stars and stripes, one should be with the administration, right or wrong. He stated that he was with the administration when he believed it was right.

He gave as the three causes of precipitation of trouble in the Philippines: Refusal to permit the looting of Manila; delay of congress through obstructionists in ratifying the Spanish-American treaty, and belief of the Filipinos that the United States soldiers feared them. He gave it as his opinion that it was impossible for the Filipinos to establish a government among themselves.

At the close of the speech a leading member of the populist party sought out Chaplain Matthey and told him that he had expressed his sentiments on the Philippine question.

Republicans and Populists Join in Cheering the Chaplain's Speech.

CHAPLAIN, Neb., Oct. 10.—(Special.)—Chaplain Matthey of the "Fighting First Nebraska" entertained the citizens of Nance county for two hours last evening at Shea's opera house in this city. The house proved inadequate to hold the enthusiastic admirers of the speaker, who went out to hear the truth spoken about the situation in the Philippines.

The chaplain was listened to with intense interest and was cheered many times during his speech. Many of the leading populists of the county were present and joined with republicans in the cheering and the meeting proved to be the most enthusiastic one held in this place since the campaign of 1896. Chaplain Matthey is a god a vote-getter as he is a fighter.

President to Tennesseeans.

The president responded:

"I do not intend to interrupt your business at this meeting and have only called that I may pay my respects and present my personal good wishes to the Army of the Tennessee and respond with expressions of gratitude and satisfaction to the warm words of General Dodge, your president, in pledging the support of the veterans of the Army of the Tennessee to the flag and the patriotic purpose of the government of the United States. Indeed, no such pledge is needed from your chairman, as I feel for you known without his stating it when the army stood when the flag was assailed, carried by soldiers and sailors of the republic. I would know where this veteran army would stand when I should recall its history, with its Grant, Sherman, McPherson and Logan, and as I stand, I have only come to pledge the honor which I feel for the veterans of 1861, who have for more than thirty-three years taught patriotism to the people of the United States, and when the hour of peril came last year, as a result of your instructions, more than 1,000,000 men volunteered to defend the flag. I thank you for your cordial welcome and bid you good morning."

The president was then driven to the hall of the Woman's Athletic club, where a light luncheon was served in honor of Mr. and Mrs. McKinley.

In the woman's Athletic club society leaders and women assembled in various kinds of work assembled early in anticipation of the visit of the president and Mrs. McKinley. After leaving the veterans Mr. McKinley took a short drive, followed by a parade in the city, and a more extended call at the hotel for Mrs. McKinley. The entire party then repaired to the athletic club, where an exhibition of swimming was given, all of which was applauded. Mrs. Harrison, wife of the mayor, and Mrs. H. H. Kohlman were among those present. The stay was short, however, and the presidential party left, followed by words of regret that the visit could not have been of longer duration. Mrs. McKinley and Miss Barber returned to the hotel, while the president, merely along the route, betook himself to the Press club, where he spent the hour from 12 to 1 receiving the members of the club. The president expressed his pleasure at the opportunity of meeting the working newspaper men of the city, but made no formal speech.

Banquet Distinguished Canadians.

CHICAGO, Oct. 10.—Sir Wilfrid Laurier, premier of Canada, and other distinguished Canadians in the premier's party were the guests of Canadian-Americans today at an informal luncheon at the Great Northern hotel. The guests began by drinking the health of President McKinley and following by appropriate toasts. Sir Wilfrid Laurier responded to the toast, "Canada." Mayor Raymond Prefontaine of Montreal spoke on the "Intimate Commercial Relations Between Canada and the United States" and urged even closer union along the lines of trade. Governor Tanner and Mayor Harrison spoke briefly.

Postmaster Crow Responds to Toast.

CHICAGO, Oct. 10.—An elaborate banquet was given at the Auditorium tonight in honor of Postmaster General Smith. About 200 postmasters were present and other guests swelled the number to 500. Henry's flag, arrived in Boston harbor this afternoon from New York, after a run of fifty-three hours in foggy weather. The vessel was received

IMPERFECT DRAINS.

Care Should Be Taken That the Impure Blood Be Properly Carried Off.

Everyone knows of the fatal results which follow the stoppage of the drains in a house. Queen Victoria's husband, the Prince Consort, died from "Bright's disease," which was generated in the palace by the stoppage of the drains.

The kidneys, among their many other functions, act as "drains" to the body. Through them the "blood passes" to be purified, leaving behind a mass of effete matter, which it is their duty to eject from the system.

When, however, the kidneys become congested and all clogged up, this refuse matter accumulates and becomes an active poison, and, in course of time, infects the whole man, and eventually, if the cause is not removed, it occasions sudden death, the patient drowning, as it were, in his own secretions.

There is a remedy, known all the world over, that will strengthen them, so that the kidneys no longer do their duty are too numerous to set forth.

Nearly always women's peculiar ailments in their more aggravated and protracted forms are traceable to this source, and rheumatism, in all its varied phases, while pneumonia and Bright's disease are but the culmination of an organic trouble, which, had it been treated organically and not symptomatically, could not possibly have had any such fatal termination.

Coughs and colds, strange as it may seem, are oftentimes symptoms of trouble in the kidneys.

What must be done, then, in these cases?

It is surely unwise to treat symptoms, when we can at once heal the organ from whence the symptoms rise.

Let us then at once go to the root of the trouble and heal the kidneys.

There is a remedy, known all the world over, that will strengthen them, so that they can perform their functions; feeling better and cleansing them in such a marvellous manner that the patient immediately feels the good work that is going on, and in a few weeks is able to join the ranks of the many thousands who gratefully acknowledge that they owe health and strength, and sometimes life itself, to this unfailing remedy, Warner's Safe Cure.
